

Volunteers of the Syrian Red Crescent under Arbitrary detention & Enforced Disappearance

Douma City – Damascus Suburb

Still many field medics of the Syrian Red Crescent's volunteering team are under enforced disappearance, where many of them were arrested on frequent intervals as a direct result of their field work to treat the wounded and the injured, and there is a serious concern that they might be subjected to torture and maltreatment at detention centers.

VDC was able to document seven cases of such, for volunteers/medics from the city of Douma in Damascus suburb, many months have passed now since their disappearance, without any trace:

- 1) Volunteer Medic: Ghassan Rafeeq Al-baysoani : he was detained on the 29th of June 2012, during the raid waged by regime's forces on the city, Ghassan is a husband and a father of three children.
